

## PhD Research Assistant Positions

Applications are invited for PhD Research Assistant positions at the Computational Biomedicine Lab ([www.cbl.uh.edu](http://www.cbl.uh.edu)), Department of Computer Science, University of Houston in the areas of Biomedical Image Analysis and Biometrics.

The Computational Biomedicine Lab (CBL) is a cutting-edge research facility with many ongoing projects in the fields of Biomedical Image Analysis, Computational Biomedicine and Multi-spectral Biometrics. CBL provides a unique interdisciplinary research environment with internationally recognized collaborators from Medicine, Biology, Mathematics, and Engineering. CBL's Face recognition software (URxD) ranked first in the 3D-shape section of the recent Face Recognition Vendor Test (FRVT) organized by NIST (<http://www.uh.edu/admin/media/nr/2007/07july/073007urxd.html>).

The candidate will benefit from mentorship of a diverse research team and will be exposed to cutting-edge technology. The successful applicant will have solid research, interpersonal, and communication skills.

Applicants should have a B.Sc. in Computer Science, Electrical Engineering, Applied Mathematics or a related field. Programming experience in C/C++ is desirable. Prior image analysis training is welcome but not required.

The position is open immediately and the salary compensation is very competitive. For consideration, please submit your application preferably in one single PDF-document including cover letter, a full CV, a statement of research interests and career goals and the names and email addresses of three references to [ioannisk@uh.edu](mailto:ioannisk@uh.edu), with subject line "RA/RSP: (your name)".

For more information please email Prof. Kakadiaris ([ioannisk@uh.edu](mailto:ioannisk@uh.edu)).

Houston offers an outstanding environment for research and professional opportunities for growth and collaboration, including the largest medical center in the country. UH is an equal employment opportunity employer and smoke-free environment. Women and minority candidates are strongly encouraged to apply.
